# SCHOCK

HANDMADE IN GERMANY

## ADVANTAGES

SCHOCK sinks are up to 80% quartz, the hardest constituent of granite. CRISTADUR<sup>®</sup> and CRISTALITE<sup>®</sup> PLUS have been specially developed for the demands of the kitchen. The rigors of everyday use vanish with hardly a trace.

**DIRT REPELLENT EFFECT**

The dirt simply runs off.

**ODOUR-FREE**

Leaves the surface free of smells

**HEAT-PROOF**

Not temperature sensitive

**FOOD - SAFE**

Absolutely safe material

**pro Hygienic 21**

Non-porous finish leaves no place for bacteria to thrive

**IMPACT-RESISTANT**

Tough and resistant material.

**STAIN-RESISTANT**

Food stains cannot stick.

**MADE TO LAST**

Extremely durable.

## MATERIAL TECHNOLOGY

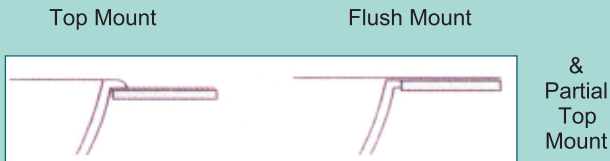

Since the quartz composite sink was invented, SCHOCK materials have been continually refined and set new standards. The material's ultra-fine structure means dirt that could be a breeding ground for bacteria finds it impossible to stick to the surface.

German Engineered

### Installation Procedure

- ❖ There are 3 types of installation options in India. (Sandwich not suitable)

- ❖ Flush mounting calls for highly experienced plumber & granite vendor.
- ❖ Always use the actual sink for granite cutting. If not possible then cut the granite to the sink size including drainboard after reducing 1 inch /25.4mm on length & width.
- ❖ Ensure the sink always rests on the granite on all four sides. The sink should not rest on the wall below tiles (Dado).
- ❖ The drainboard can be installed to your left hand or right hand side as you face the sink. Most of the sinks are installed with drainboard to your right hand side.
- ❖ We recommend the faucet shall be fixed on the sink to enhance the aesthetic appeal.(1 Tap / mixer only)
- ❖ There are dummy punches provided on either side of the sink. Once the drainboard position is decided (right or left) check for the dummy position beneath the sink and start tapping on the sticker with hammer. (Not in Salsa, Big Bowl & Bar sink models).
- ❖ To increase the hole dia, use the round filing rod to grind slowly inside the hole. (Emery sheets can also be used)
- ❖ **Please insist for ventilation grill on your sink unit shutters for air circulation beneath the sink.**
- ❖ Apply Silicon Sealant (GE / Anabond) water proof grade below the rim of the sink to prevent water seepage.
- ❖ We recommend sink installation after all civil, painting works are completed to prevent damage. Also use plastic sheets to cover the sink after installation & tape all around.

Reprinted July 2018

### T & C

- ❖ Price includes GST and Wastehole Couplings.
- ❖ Prices subject to change without prior notice.
- ❖ Delivery Charges - Extra at actuals.

### Maintenance

- ❖ We recommend VIM powder / ALA liquid / DOMEX Thick / Modicare-SpicanSpan/AMWAY with soft cloth for cleaning the Sink everyday.
- ❖ To remove scratches and accumulated tough dirt, use new Scotch Brite with VIM powder / ALA liquid / DOMEX Thick/ Modicare - Spican Span/AMWAY & give a dry wash followed by Water Wash. Repeat the Process 2 times to get a new clean Sink. **Please do not use any Acid in any form.**

The quality of water has a direct bearing on the sink appearance. If hard or saline water is not treated and used on the sink, there is a high possibility scaling could form on the sink (like white patches) which is visible in dark Colours like Nera etc. Customers are requested to use Scale remover from leading brands / Modi-care / Amway etc.

***It is not Plastic or Fibre or PVC... There is no top coat. It is a natural mineral called QUARTZ, which is made into fine powder, blended with pigment & binding agents and moulded into a solid, homogenous, colourful, non-porus, heat resistant, scratch proof time tested world class QUARTZ sink.***

***Only few select models / colours from the website are marketed in India***

***Please retain your purchase invoice from the respective Dealer for any warranty claim***
